FGAM Update April 2024

Insights and information from Dr. William R. Nelson, PhD, Chief Investment Officer of Financial Gravity

In this update, Dr. Nelson will discuss the FGAM investment philosophy, which we call Control the Controllables, and explain not only the difficulties of attempting to predict the future, but the wisdom of focusing exclusively on costs, tax efficiency, diversification and risk alignment. Dr Nelson will also review and discuss the current concerns of inflation, wars, and the possibility of a market correction. Lastly, he will explain how Time Optimized Planning can solve for the five major threats to retirement security.
